

The Dear Dripping Springs Water Supply Corporation Member:

We are pleased to announce that we have established a scholarship fund to help support local high school seniors graduating in 2020. We are offering several scholarships up to \$1,000 per recipient for a total of \$10,000. The deadline for application is April 15, 2020.

Applicants are eligible if they plan to attend a college, university, trade/technical school or have planned a deferred enlistment into one of the branches of the United States military, and meet one of the following requirements:

- Graduating from Dripping Springs High School.
- Graduating from a private school inside the Corporation's service area.
- A home-schooled student at the senior level, and his/her parents/guardians are members of the Dripping Springs Water Supply Corp.

We have enclosed a copy of our Scholarship Policy along with a short Scholarship Application.

Please help us share this important information with your friends or neighbors who might have students who meet the application qualifications. Together we can help make sure that we are providing opportunities for the future leaders from our community.

Sincerely,

Rex Miller
Secretary/Treasurer

Dripping Springs Water Supply Corporation Scholarship Policy

The Dripping Springs Water Supply Corporation recognizes the importance of developing and supporting future leaders from our community. To help support this important and worthwhile goal we have established a fund to distribute financial scholarships to high school seniors graduating from Dripping Springs High School, private schools inside the Dripping Spring Water Supply Corporations' service area and home-schooled students whose parents/guardians are members of the Water Supply Corporation.

These scholarships will help qualified applicants offset the costs associated with continuing their education in a college, trade or technical school and/or to offset the cost associated with enlistment in the United States military (e.g., storage of a motor vehicle).

Students may apply for these scholarships by completing an application and submitting it to the Dripping Springs Water Supply Corporation. In order to be considered, completed applications must be received no later than April 15, 2020. A letter of recommendation may be included with the application but is not required.

Members of the Dripping Springs Water Supply Corporation may also submit/nominate names of individuals who should be considered for scholarship in an adult education program.

The applications will be reviewed by the Corporation's General Manager and Board of Directors for consideration and final determination. Once final determination has been made, each recipient will be contacted and presented with a certificate at the DSHS end of the year award ceremony

NOTE: The scholarship will be paid directly to the learning institution or in the case of a military member directly to the entity providing the service.

Dripping Springs Water Supply Corporation Scholarship Application

• Student Name: _____ Date of Birth: _____

Parent or Guardian: _____
