

getMyMeter.info

Access your water usage information and configure notification preferences easily and securely from the getMyMeter.info web portal and integrated smart phone apps.

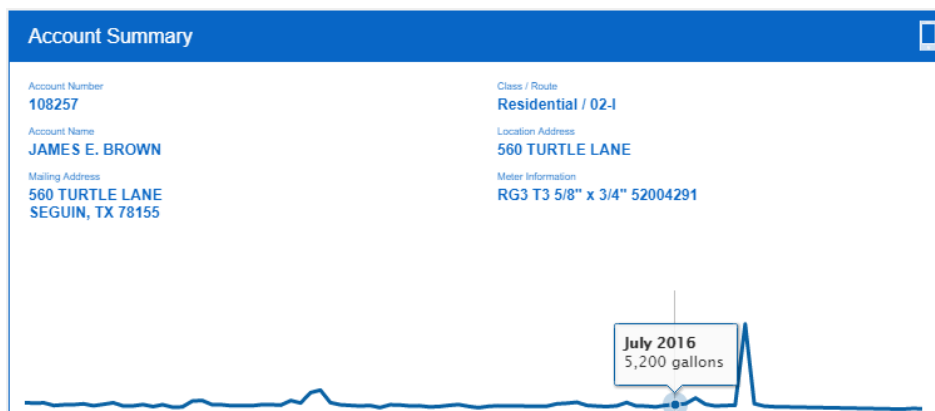

Accessing the web portal

Using your web browser, navigate to <https://getmymeter.info> and click the “Create profile” link.

Enter “Dripping Springs Water Supply Corporation” in the utility name and your Dripping Springs WSC account number, exactly as it appears on your monthly bill. Specify your desired user name and password, then enter your first name and last name as they appear on your Dripping Springs WSC monthly bill. Finally enter your email address and hit the “Register Account” button. You will receive an email with a confirmation-link.

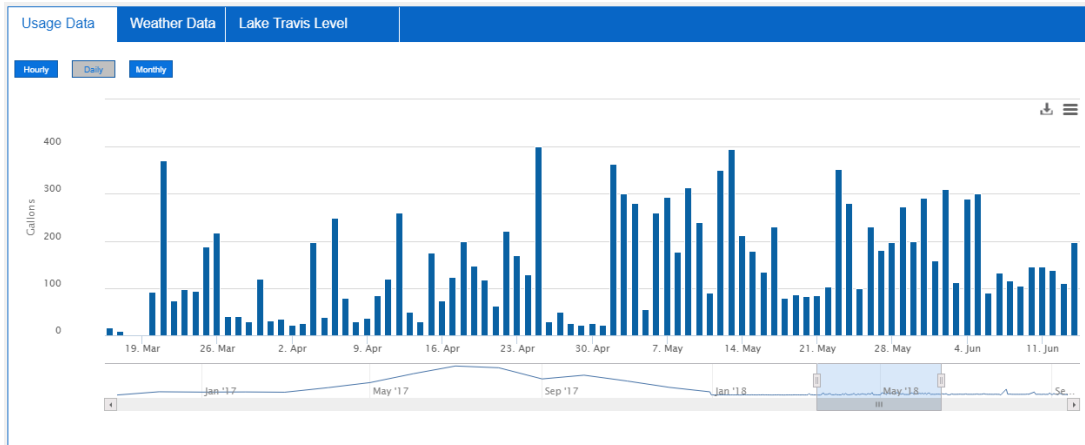

Account Summary

After you have registered and confirmed your account you can login with the user name and password you specified during registration. The Account Summary widget shows you information about your account, location and meter along with a “sparkline” depicting your monthly water usage.

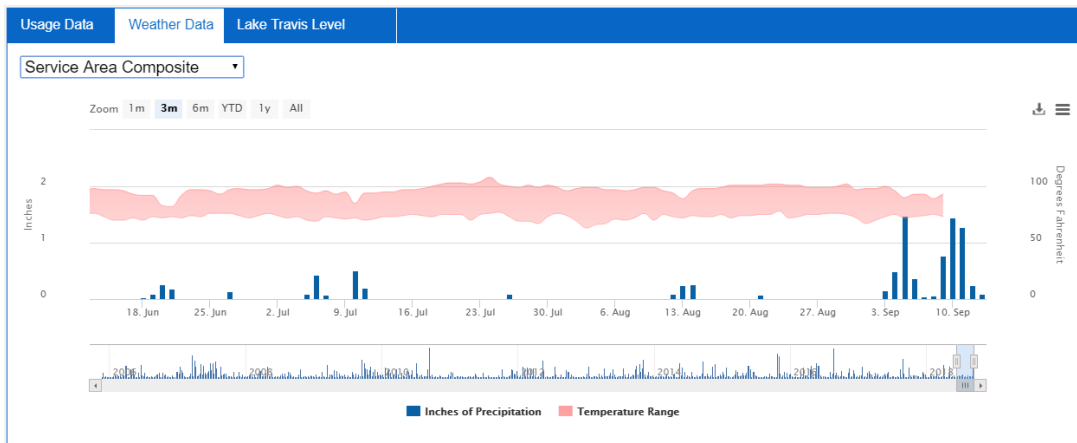

Usage Data

The Usage Data section shows your water consumption; float your mouse over a bar in the chart to view details for that period.

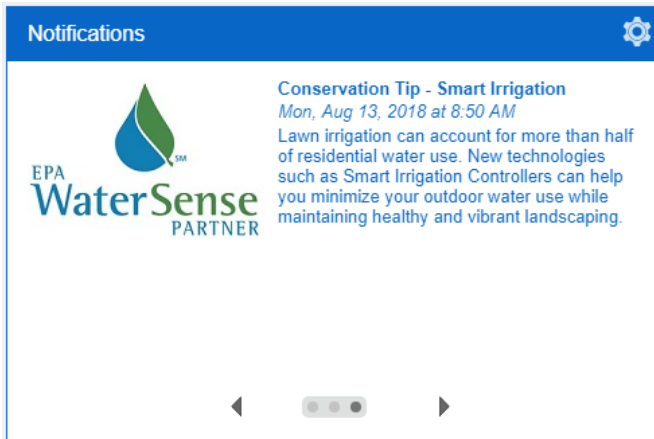

Weather Data

The Weather Data section shows temperature range and precipitation data from weather stations in and around the Dripping Springs WSC service area.

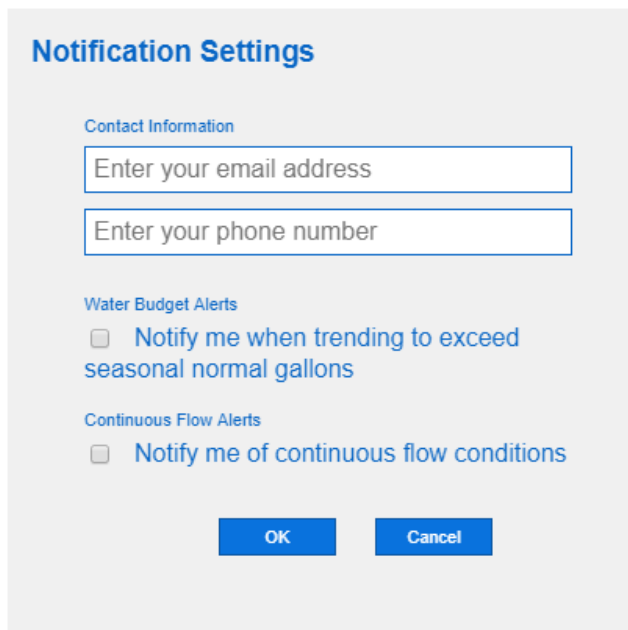

Notification History

The Notifications section shows you recent notifications including conservation tips, service notices and other communications from Dripping Springs WSC.

Configure Notification Preferences

You can configure where you want to receive notification and which notices you prefer.

A screenshot of a 'Notification Settings' dialog box. The title 'Notification Settings' is in blue. Under the heading 'Contact Information', there are two text input fields: 'Enter your email address' and 'Enter your phone number'. Below these fields are two sections of settings, each with an unchecked checkbox: 'Water Budget Alerts' with the text 'Notify me when trending to exceed seasonal normal gallons', and 'Continuous Flow Alerts' with the text 'Notify me of continuous flow conditions'. At the bottom of the dialog are two blue buttons: 'OK' and 'Cancel'.
